

BPT C/200

Terminals (As C/200 is no longer available, YC200 conversion is shown)

C/200	YC200
1 Common	5
2 Speech Out (Mic)	9
3 Speech In (Speaker)	8
4 Call	7

D 1,2 Aux Button (Volt Free)

IMPORTANT NOTE :

- 1) Before replacing the handset make note of the wires to each terminal on the existing unit (an easy way is to cut each core off leaving a piece of the insulation in place with colour visible) twist unused cores together (so you know they are not used, do not short them out).
- 2) Some older systems will have cable with one coloured core and a solid white core in this case mark each core with a marker or tape.
- 3) Some systems may have loop on wiring, you will have 2 cables into your handset (make sure any joins remain, as these may be serving other flats on the system).
